Education

AMITY UNIVERSITY , Noida Delhi : Bachelor of Computer Applications (BCA)

Feb 2023 – May 2026

Experience

SOFTWARE DEVELOPER INTERN , TechChaze.Inc – Mumbai, (Remote) Oct 2024 – Present

I am a Full-Stack Developer at TechChaze, where I have gained extensive experience and honed my skills in technologies such as Next.js, Strapi, and React Native, along with Web Design. During my time at TechChaze, I have successfully developed numerous functional and dynamic websites, further enhancing my expertise in building scalable and efficient web applications.

Full Stack Developer Intern, BharatKare – Gurgaon, (Remote) Sep 2024

I worked as a Full-Stack Developer Intern at BharatKare, where I was responsible for developing their official website. My role included tasks ranging from design to managing the backend and WordPress database. During this internship, I gained valuable experience in hosting WordPress databases and learned how to efficiently integrate WordPress APIs into the front end to create dynamic and functional web pages.

PROJECTS

Full-Stack E-commerce Application

Jul 2024 - Aug 2024 | [Live Link](#)

A full-stack e-commerce website built with the MERN stack (MongoDB, Express.js, React, Node.js) and Tailwind CSS for styling. It offers a seamless shopping experience with user-friendly interfaces, enhanced security, and efficient management.

Full-Stack Blog Application

Aug 2024 - Aug 2024 | [Live Link](#)

A full-stack blog application developed using the MERN stack and Tailwind CSS. It allows users to create, read, update, and delete blog posts. Features include user authentication, profile management, smooth animations, and a responsive design.

E-commerce Admin Panel Application

Jul 2024 - Jul 2024 | [Live Link](#)

An admin panel for managing products, users, orders, and messages. Includes a dashboard for key metrics, tools to update product details, handle user inquiries, and manage admin profiles. Let me know if further adjustments are needed!
